Design & Quality

You are now the proud owner of the world's finest humidor

This humidor embodies the utmost skill of our master craftsmen in all stages of design and manufacturing.

All components have been engineered and machined to the highest tolerances, finished and assembled by hand to the exact standards set

Only high grade kilndried cabinet wood is used and paintstakingly covered with 7 coats of lacquer and polished to a high gloss finish!

Our humidor is a top product of modern technology and guarantees a constant humidity of ca. 72%. The use of a hygrometer is not necessary anymore.

Operation instructions

- 1.) It is advisable to put a cup full of water into the body for two days, before using your new humidor the first time.
- 2.) Open the hygostat above the water.
- 3.) Fill the hygostat equally with the distilled water in the differents compartments.
- 4.) After closing the hygostat you can fix it immediately into the humidor. It is fixed on the magnet.
- 5.) Repeat the process about every two months. It is advisable to note the filling date.

Now we wish you years of satisfaction with this humidor.
